Powerbox Kunshan

YOUR PARTNER IN ASSEMBLY OF POWER CONVERTERS

The Powerbox Group

Established in 1974 the Powerbox Group has successfully grown to be one of Europe's leading suppliers of power converters and associated products.

The Powerbox Group has experience in developing, manufacturing, marketing and sales of power supply solutions to the electronics industry, and operates predominately in the high technology sector of the market.

The Powerbox Group consists of two divisions; Powerbox – the manufacturer division offering world class standard and customised power products, and Craftec – the distributor.

The group has a global presence based upon the head-quarters in Sweden and from its subsidiaries in 16 countries covering Europe, the US, Asia and Australia. The product offering includes a wide range of standard power supplies as well as extensive capabilities in offering customised power solutions.

Powerbox Kunshan

Kunshan is a highly dynamic city with the top GDP position in China. This means that the city offers access to qualified staff as well as access to high quality suppliers and a developed infrastructure. Flexible logistic services are facilitated by the closeness to Shanghai.

A factory facility equipped with all relevant manufacturing and testing equipment.

Dedicated team with a decade of experience in manufacturing power supplies.

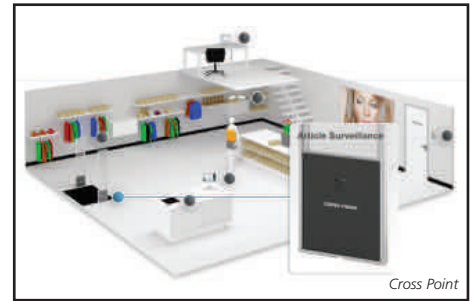

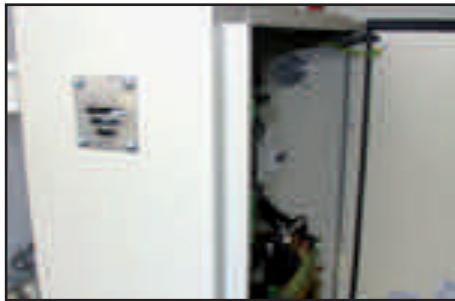

Quality is monitored by a certified and dedicated QA engineer.

Powerbox Kunshan offers the following services

- ASSEMBLY OF ADDED VALUE POWER UNITS - Typically a standard power converter mounted in a locally sourced and customized mechanics with defined connectors and switches. Testing and quality assurance as well as logistic services.
- MANUFACTURING OF POWER CONVERTERS – Typically full assembly from stuffing the PCB with components to mounting of the converter in a locally sourced and customized mechanics with defined connectors and switches. Testing and quality assurance as well as logistic services.
- SOURCING OF POWER RELATED PARTS – Typically connectors, cables, transformers and mechanics.
