POWERBOX  
VP160 Series

## Dual input converter with built-in battery

Battery buffered supply with dual input for audio testing systems.

### Features

- Battery back-up system and voltage control for audio testing systems
- Quickly rechargeable
- Internal battery for 10-minute hold-up time

### Input

- 93-264 VAC or 10-42 VDC

### Output

- +5 V / 12 A
- +5.5 V / 4 A
- +12 V / 4 A
- -12 V / 4 A

### Dimensions

- 19" module: 16HP, 3U, 360mm

### About Powerbox

Founded in 1974, with headquarters in Sweden and operations in 15 countries across four continents, Powerbox serves customers all around the globe. The company focuses on four major markets - industrial, medical, transportation/railway and defense - for which it designs and markets premium quality power conversion systems for demanding applications. Powerbox's mission is to use its expertise to increase customers' competitiveness by meeting all of their power needs. Every aspect of the company's business is focused on that goal, from the design of advanced components that go into products, through to high levels of customer service. Powerbox is recognized for technical innovations that reduce energy consumption and its ability to manage full product lifecycles while minimizing environmental impact.
