POWERBOX
VB150 Series

Dual input converter

Universal input converter to power long-wave radio equipment on submarines.

Features

- Compact design
- Dual input
- Cooling by thermal conduction to tube
- Automatic input selection, AC is preferred

Input

- 207-253 VAC
- 18-33 VDC

Output

- 34 VDC / 4.6 A
- 550 VDC / 60 A
- 7 VDC / 7 A
- ±18 VDC / 1 A

Dimensions

- Fits into a tube with 100mm diameter , 220mm long

About Powerbox

Founded in 1974, with headquarters in Sweden and operations in 15 countries across four continents, Powerbox serves customers all around the globe. The company focuses on four major markets - industrial, medical, transportation/railway and defense - for which it designs and markets premium quality power conversion systems for demanding applications. Powerbox's mission is to use its expertise to increase customers' competitiveness by meeting all of their power needs. Every aspect of the company's business is focused on that goal, from the design of advanced components that go into products, through to high levels of customer service. Powerbox is recognized for technical innovations that reduce energy consumption and its ability to manage full product lifecycles while minimizing environmental impact.
