POWERBOX
UBC05 Series

Battery back-up system for traffic control systems monitoring speed-limit compliance

Traffic control systems have high responsibility to control the traffic in a safe way. But what happens in case of a breakdown of the AC supply line? How to ensure that the latest information is recorded. UBC05 will ensure to hold your data for at least 96 hours.

Features

- In-built battery
- Hold-up time of 96 hours

Input

- 110 / 230 VAC

Output

- 5 VDC / 900 mA
- 24 VDC / 25 mA

Dimensions

- 19" plug-in module: 16HP, 3U, 160mm

About Powerbox

Founded in 1974, with headquarters in Sweden and operations in 15 countries across four continents, Powerbox serves customers all around the globe. The company focuses on four major markets - industrial, medical, transportation/railway and defense - for which it designs and markets premium quality power conversion systems for demanding applications. Powerbox's mission is to use its expertise to increase customers' competitiveness by meeting all of their power needs. Every aspect of the company's business is focused on that goal, from the design of advanced components that go into products, through to high levels of customer service. Powerbox is recognized for technical innovations that reduce energy consumption and its ability to manage full product lifecycles while minimizing environmental impact.
