POWERBOX
UK24 Series

Battery back-up system and voltage control for traffic light testing systems

Traffic lights must work always in safe mode. And in case of breakdown of the supply voltage the shut-down of the lights must follow rules. UK24 provides enough energy for this shut-down.

Features

- 5 minute back-up time
- Will operate at any 24VDC supply line

Input

- 24 VDC

Output

- 24 VDC / 1A

Dimensions

- 19" module: 16HP, 3U, 160mm

About Powerbox

Founded in 1974, with headquarters in Sweden and operations in 15 countries across four continents, Powerbox serves customers all around the globe. The company focuses on four major markets - industrial, medical, transportation/railway and defense - for which it designs and markets premium quality power conversion systems for demanding applications. Powerbox's mission is to use its expertise to increase customers' competitiveness by meeting all of their power needs. Every aspect of the company's business is focused on that goal, from the design of advanced components that go into products, through to high levels of customer service. Powerbox is recognized for technical innovations that reduce energy consumption and its ability to manage full product lifecycles while minimizing environmental impact.
