POWERBOX
UPSR2826 Series

Battery backup unit for very unstable supply networks

This BBU ensures reliable supply voltages even the grid is off for more than 8 hours per day.

Features

- Battery back-up system for aeronautical communication systems
- Supervision board for uC-monitored charging function
- Built-in low voltage shutdown via relays
- Built-in batteries

Input

- 110 / 230 VAC

Output

- 28 V charging voltage

Dimensions

- 19" cabinet, 600 x 600 mm, 42U

About Powerbox

Founded in 1974, with headquarters in Sweden and operations in 15 countries across four continents, Powerbox serves customers all around the globe. The company focuses on four major markets - industrial, medical, transportation/railway and defense - for which it designs and markets premium quality power conversion systems for demanding applications. Powerbox's mission is to use its expertise to increase customers' competitiveness by meeting all of their power needs. Every aspect of the company's business is focused on that goal, from the design of advanced components that go into products, through to high levels of customer service. Powerbox is recognized for technical innovations that reduce energy consumption and its ability to manage full product lifecycles while minimizing environmental impact.
